- ✧ 1024*768 resolution display or higher

Purchase & Registration

• Purchase NoteBurner M4V Converter Plus

• Register NoteBurner M4V Converter Plus

Purchase NoteBurner M4V Converter Plus

Quick Link: To buy a license key for NoteBurner M4V Converter Plus, click Here.

1. Why should I buy NoteBurner M4V Converter Plus?

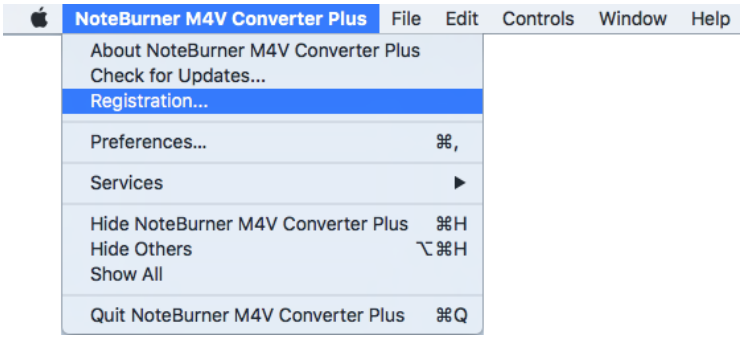
Put simply, NoteBurner M4V Converter Plus is a shareware, and the trial version has the limitation that you can only convert 1 minute for each video. After you purchase our product, you will be provided with your Email and Registration Code which will unlock the trial version limitation.

2. What Benefits do we have after Registration?

- Unlimited use without any time and function restrictions.
- FREE upgrades to the updated versions of the same product released.

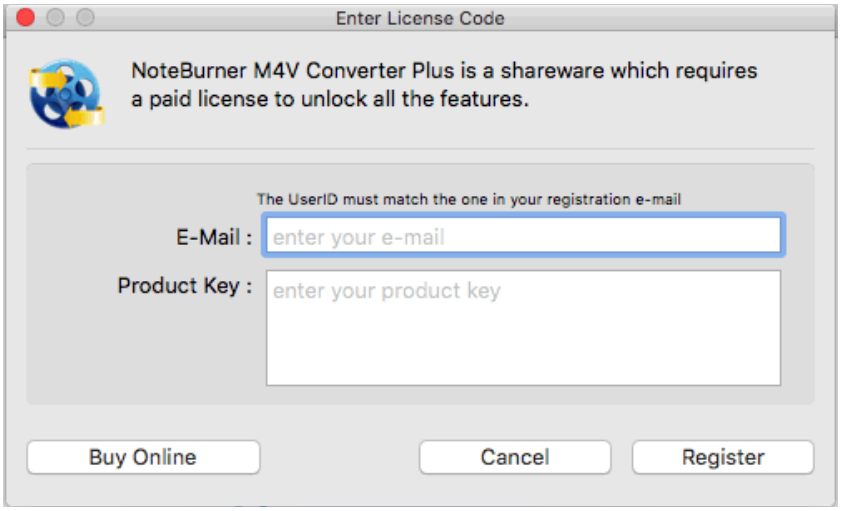
Register NoteBurner M4V Converter Plus

Step 1: Launch NoteBurner M4V Converter Plus. Click the menu bar "NoteBurner M4V Converter Plus > Registration...", there will be a registration popup dialog.

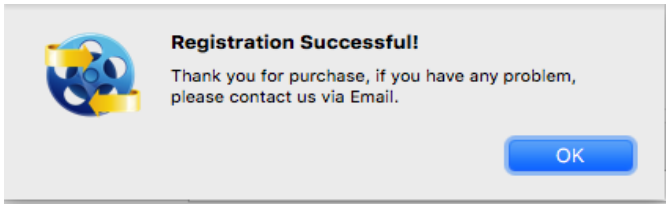


Step 2: Please fill the popup dialog with Email and Registration Code. The Registration Code is case sensitive. And, please do not add blank at the beginning or the end of the word. You can also copy and paste the Registration information into the registration popup dialog.

Note: From NoteBurner M4V Converter Plus for **Mac V4.2.3** and later versions, NoteBurner only supports registration **E-mail and code** to unlock the program shortly after payment. But if you have purchased the versions before M4V Converter Plus for Mac V4.2.3, the previous registration name and code are still valid. You can input the registration name to E-mail window after you upgrading it to the latest version.

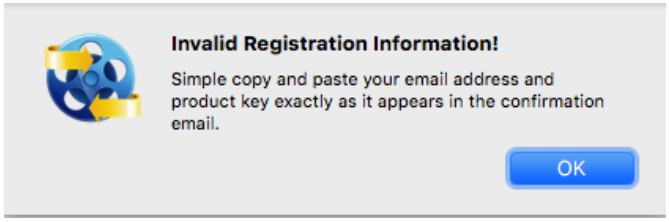


Step 3: After you finished the Registration, the limitation of the trial version will be removed.



Notice:

1. Make sure both the Email address and Registration Code are provided by our company after you pay the registration fee. If you have not paid, please click Buy Online to purchase.
2. Please make sure the Email address and Registration Code you entered are completely and correctly, if not, an error message will pop up as below:



Installation & Interface

• Installation

• Main Interface

• Converting Interface

• Menu

Installation

To install this product, please do as the following steps:

1. Download the installation package for NoteBurner M4V Converter Plus from Download page.

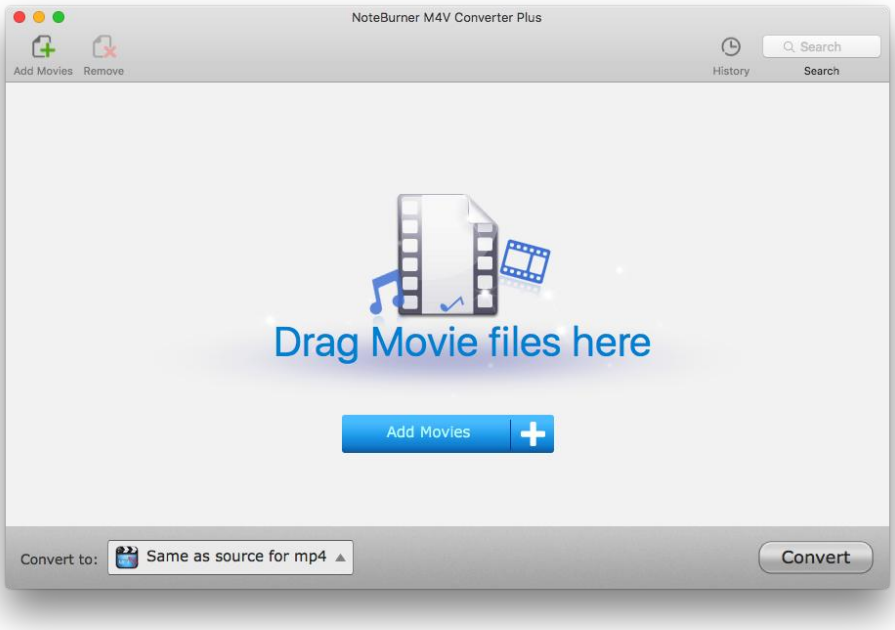
2. Double click the installation file noteBurner-m4v-converter-plus.dmg to start installing it on your computer.

3. Follow the instruction to finish the installation.

4. When you see a window where there is an icon of NoteBurner M4V Converter Plus, drag and drop the icon onto the desktop. Then you can just run the program from the desktop icon.

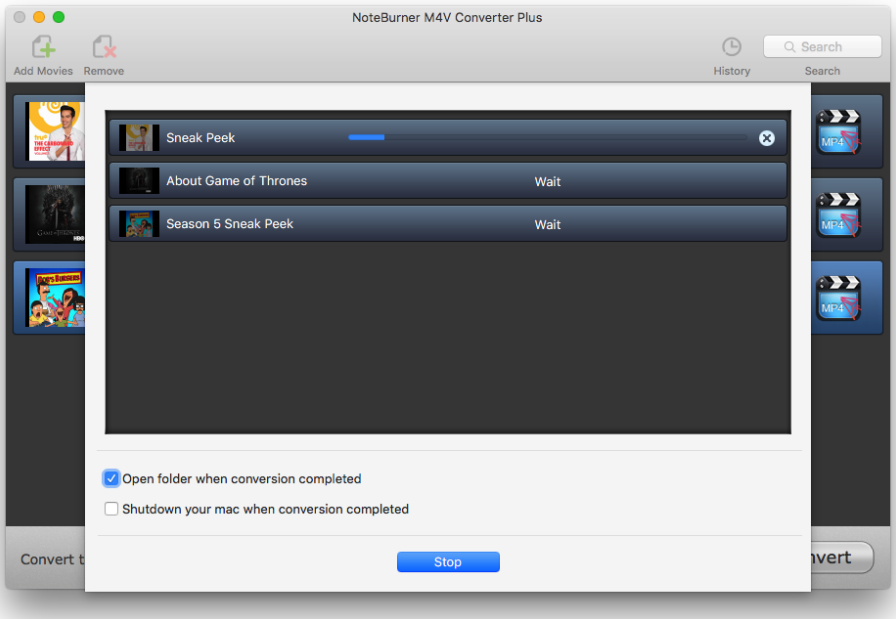
Main Interface

After you launch NoteBurner M4V Converter Plus, you will see the main interface like this:



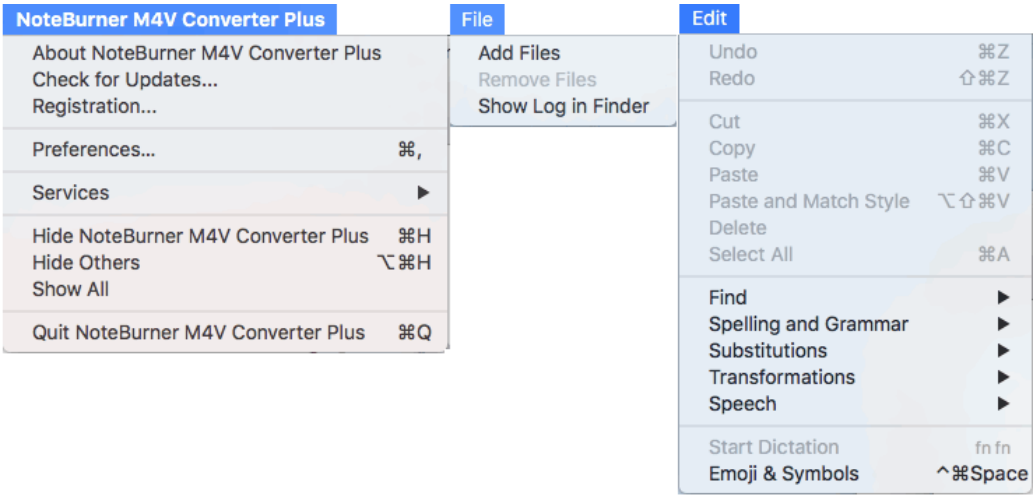
Converting Interface

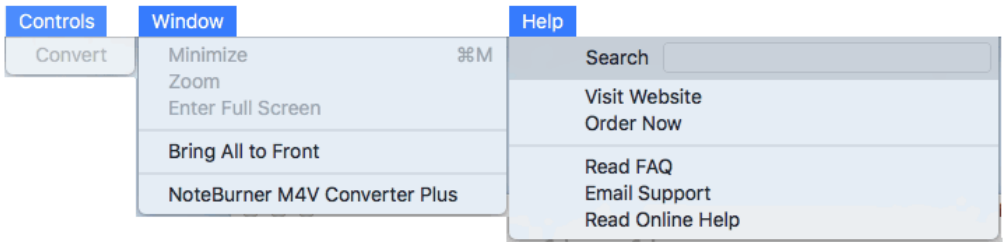
After clicking the **Convert** button, you will see the converting interface like this:



Menu

When clicking the menu bar, you will see the menu list like this:



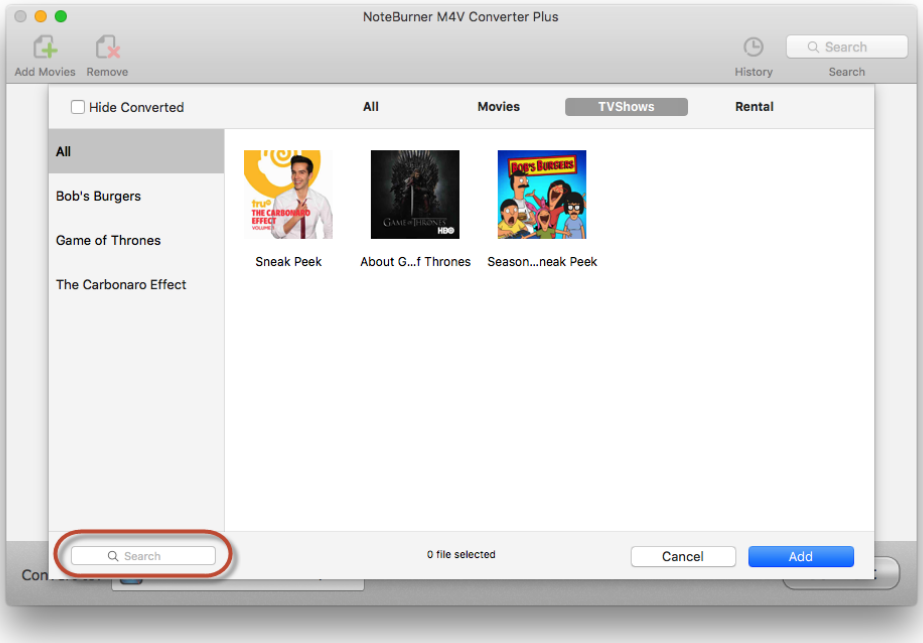


Tutorials

- Import Video Files
- Delete Video Files
- Clip Video Length
- Adjust Profile Settings
- Choose Output Format
- Customize Audio tracks and Subtitles
- Customize Output Path
- Convert Video Files
- Check History Records
- Open Output Folder

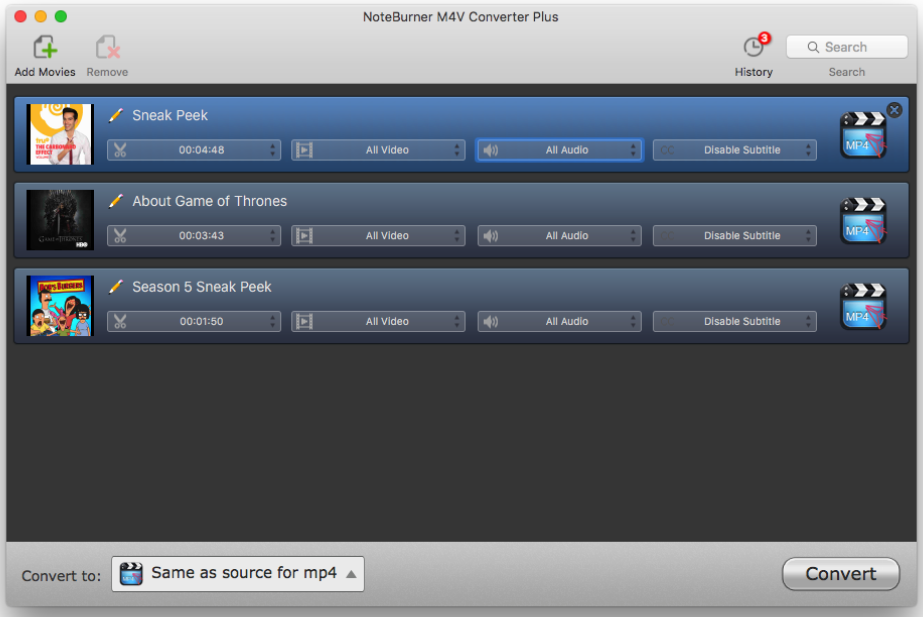
Import Video Files

Step 1: Click "Add Movies" button on the top-left of the interface or the "Add Files" icon on the center of the UI to import the M4V video files you want to convert. The program will open the iTunes movies library by default.



Tips: Only protected M4V videos can be added. If you have a collection of movies or TV Shows, and want to convert some of them, you can locate them through the **Search** Window.

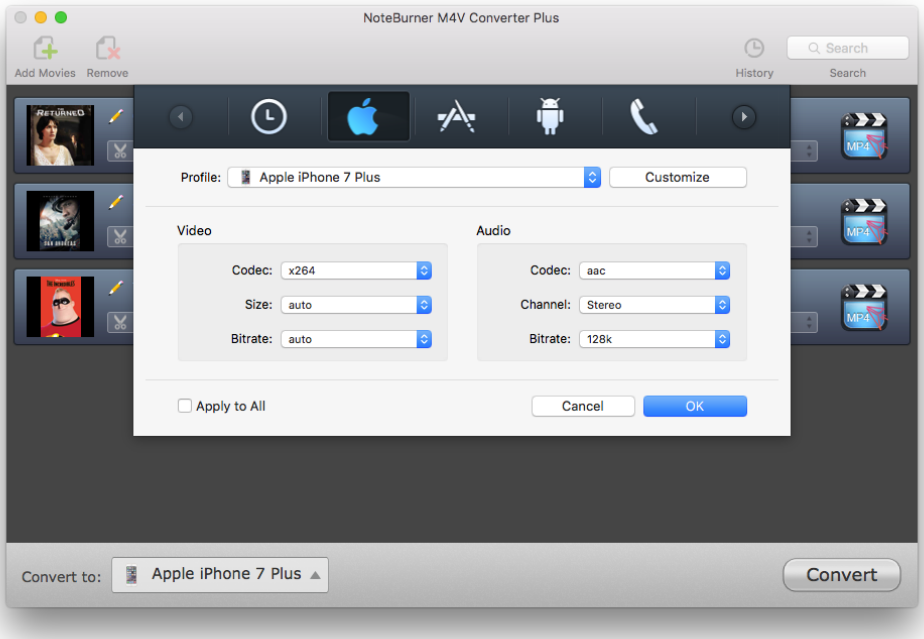
Step 2: Locate and select the files you want to add. Click the **Add** button, then you can see all the files you chose are shown in the file list.



Tips: You can also drag M4V files to the list directly from your disc or other location.

Adjust Profile Settings

Click the icon on the right side of the video tab, you are allowed to adjust the parameters of the video and audio settings. You can change the video codec, video size, video bitrate and other parameters by yourself.

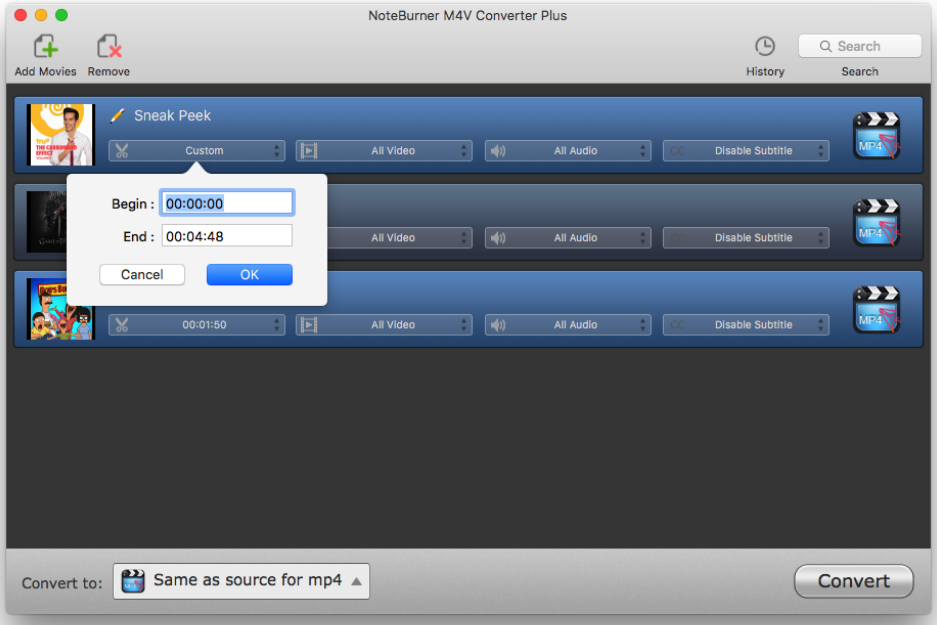


Delete Video Files

Select the files you want to delete at first. Then Click the **Remove** button to delete. And you can also drag from the list or delete from the keyboard.

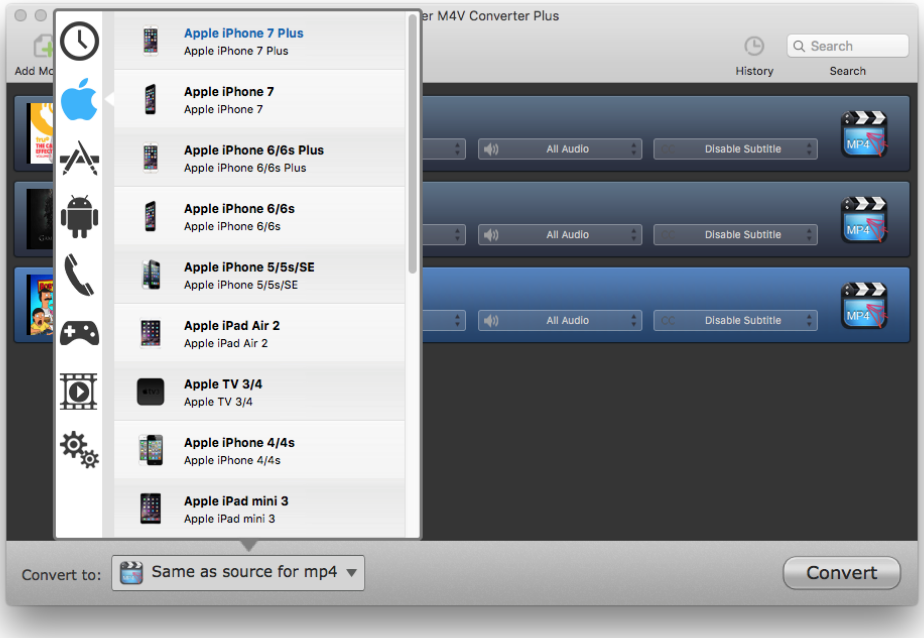
Clip Video Length

After successfully importing the M4V resource files to the program, you can directly find the videos displayed on the main interface. You can click the video clipping option on the bottom of the loaded video and choose custom to clip the video length of the video to be converted.



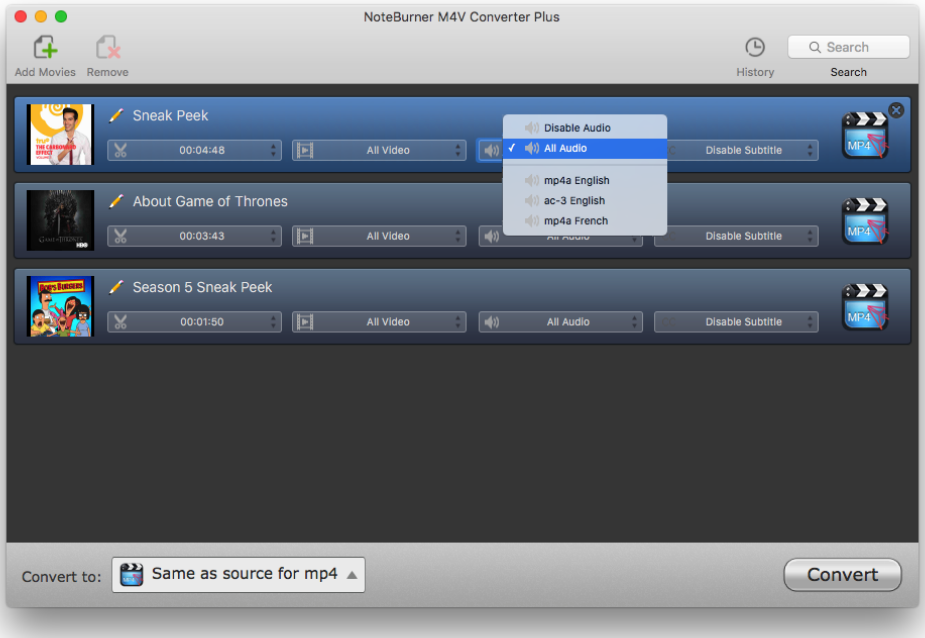
Choose Output Format

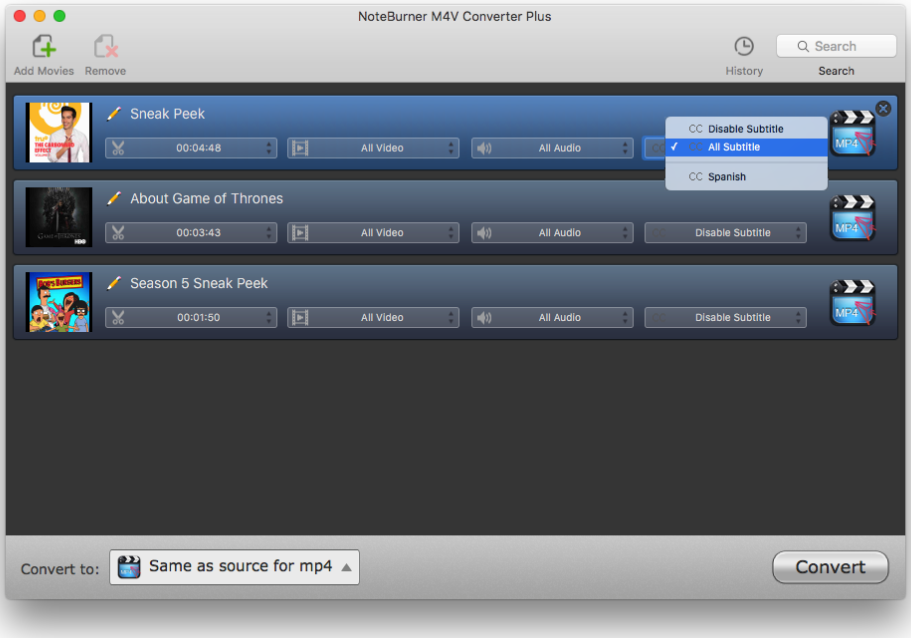
Click on the Profile drop-down list on the bottom left of NoteBurner. You can choose output format from the supported formats. You can convert the iTunes M4V videos to output formats like MP4, MOV, AVI and so on so that you can watch iTunes videos on non-Apple devices like Samsung devices, Google Nexus series, and other Android and Windows devices.



Customize Audio tracks and Subtitles

Click the Audio and Subtitle Options in the bottom of the loaded videos, and then choose the Audio tracks and Subtitles you want to keep in the drop-down list box. Then the file will show up the audio tracks and subtitles information you selected.

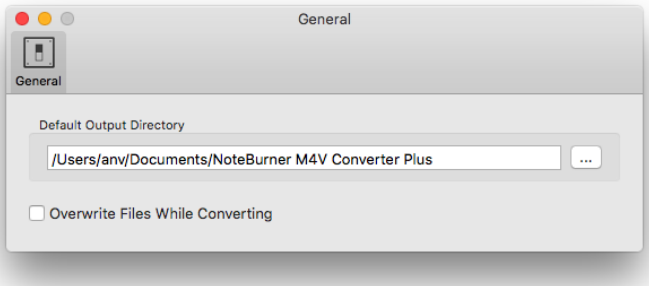




Tips: If the file contains AC-3 audio tracks, it will be displayed in the tracks and can be reserved.

Customize Output Path

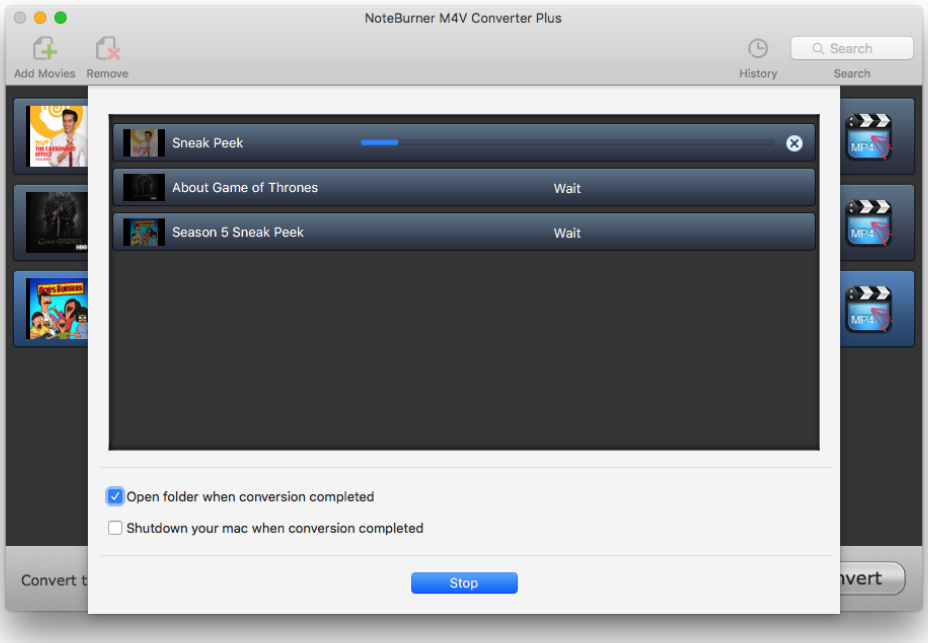
Click **NoteBurner M4V Converter Plus > Preferences** on the upper left of your Mac and then change the output path in the popup window.



Tips: If you don't change the output path, the converted files will be saved in NoteBurner M4V Converter Plus default folder.

Convert Video Files

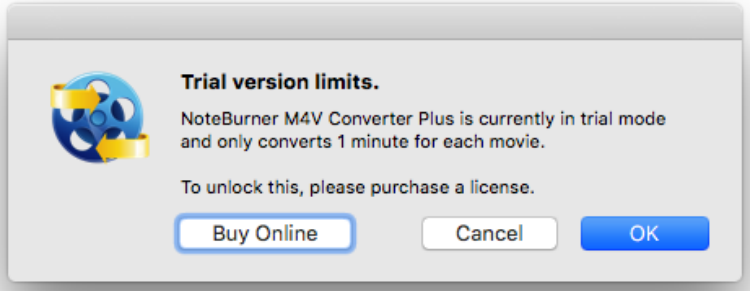
After adding the video files and customizing output path, just click the **Convert** button to start the converting. At the same time, iTunes will be launched again if it has been closed after started together with the program.



Note: Before converting, make sure your computer is well authorized with the same Apple ID that you used when downloading the iTunes movies.

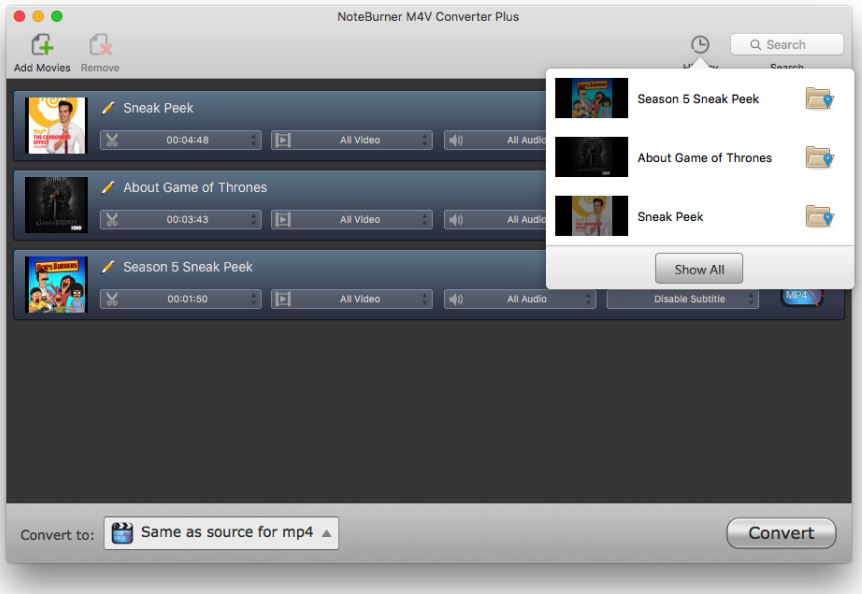
Warning: Before the Status show converting progress, iTunes will be shown and hide itself in a flash, and please don't do anything with iTunes during converting in case conversion may failed by occurring an error.

If you haven't purchased the program and use this product for the first time, when you click the **Convert** button, you will see prompt message as follows:



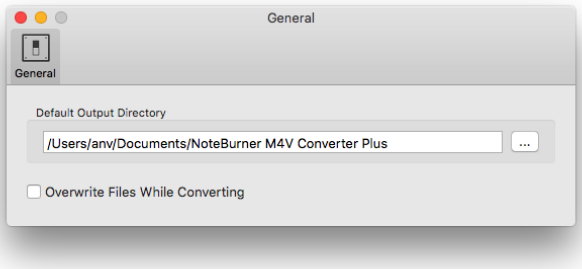
Check History Records

When the conversion is completed, the history records will be saved automatically. Click the History button to show up the records.



Open Output Folder

If you want to open output folder, please click the button on right of the output folder box to open the output folder.



Or Click the History button on the upper right and select the Open Output Folder.
